Aim: To create a website to book and view a most popular movie series.

Introduction:

- a. Basically, our website is based on a similar concept of a widely used movie booking portal, i.e. the Book My Show Portal, which allows its users to book their movie shows.
- b. Our customized idea is that we in this particular project of ours, have focussed on only one most popular Movie Series, viz. the Mission Impossible Series.
- c. Our Project covers multiple technologies, which include,
 - 1.Hyper Text Mark-up Language (HTML)
 - 2.Cascading Style Sheet (CSS)
 - 3.Hypertext Pre-processor (PHP)
 - 4.My Structured Query Language (My SQL)Also, to make our website more dynamic and attractive, we've used some part of Bootstrap, jQuery, Java Script etc.
- d. We've used a WAMPP Server for the database part.

Background:

- a) The primary idea behind this was to make the series officially available from an authentic source, with Best Clarity and Sound.
- b) Second thought behind this project was to promote the amazing movie series, and make it available for everyone, on their fingertips.
- c) The best part is, anyone can view all the movies, totally free of cost!

Objective and Scope of HARSIDHAM FILMOSCOPE:

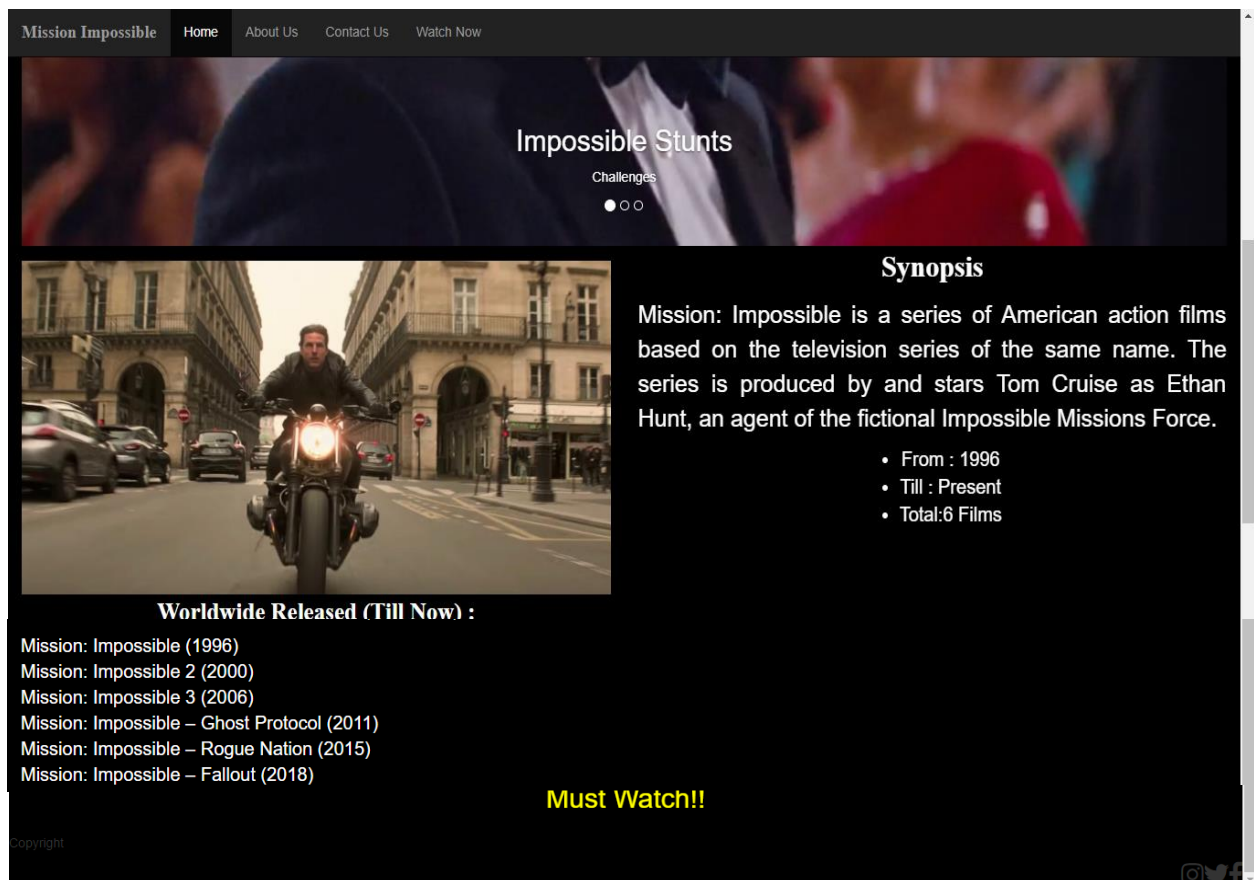

- 1.Simplify Movie Series Viewership from both Admin and User Ends.
- 2.Admin has the core rights, & an admin can authenticate & modify the overall structure according to the requirements and necessities periodically.
- 3.User gets a dynamic interface and a world class experience, on any devices they use.
- 4.Database covers the maintenance of all sorts of records in a tabular format, neatly.

Process flow:

Home → About Us → Contact Us → Watch now: Login/Signup → Authentic Data Checks → Backend Database Creation → Admin Approval → Main Record Entry and User Accession if Approved → Enjoy the Movie Series Free of Cost!

**Below are the step wise process flow screenshots
of our overall web project -**

More videos

Brief :

Mission: Impossible is a series of American action films based on the television series of the same name. The series is produced by and stars Tom Cruise as Ethan Hunt, an agent of the fictional Impossible Missions Force (IMF).

Record :

The series has received a positive reception from critics and is the 19th-highest-grossing film series of all time, with a worldwide gross of over \$3.1 billion to date. The sixth and most recent film, titled Mission: Impossible – Fallout, was released in July 2018.

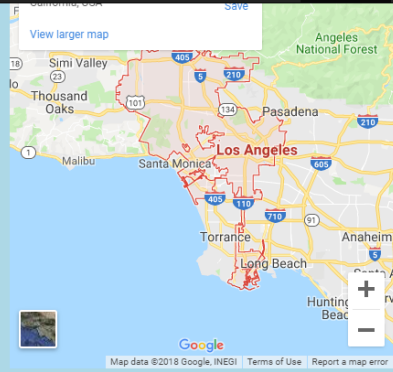

Overall :

Beginning in 1996, the films follow the missions of the IMF's main field team under the leadership of Hunt, who is forced to take over after the team is betrayed from within in the first film. The series focuses on Hunt as the lead character as opposed to the ensemble cast structure of the television series, although some characters, such as Luther Stickell (played by Ving Rhames) and Benji Dunn (played by Simon Pegg) have recurring roles in the films.
